CONSUMPTION.

THE GREAT COUGH REMEDY!

DEADER! have you a Cough, which you are neglecting.

Runder the idea that it is only a coommon cold, that it will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression necess the chest, accompanied with frequent sharp during pains. Then a dry, hacking Cough will set in, and when you raise anything it will be a thick and vellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soom have Hectic Fewer, Cold Chilis, Night Sweats, Copions Expectoration, and then Great Prostration. If you still neglect courself, a few weeks or months will see you consign ed to the grave, beaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.

Friend! have you no cause to be alarmed! In the above skelch you may see as in a glass, how every case of Consumption progresses, with more or less impudity, to a fatal

his crists, the disease is very difficult of cure, and offentimes sets at defiance all human means.

In the latter or worst stage, this medicine will offentimes arrest the disease, or check its progress, and will always make the patient more comforts de, and prolong his bife, and is therefore worthy of a trial;—but in its incipient or forming periods, Consumption is as curable as any other disease, and "Dr. Rogers' Syrup of Laverworth, Tar, and Cancinalogua," if taken at this time, will care it [23] AS SURELY AS IT IS TAKEN [25] This is strong language, but we can refer you to numberless living witnesses to prove that it is TBUEL And therefore, we cameastic exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house; and whenever you take Cold, do not "let it alone" to work mischief in your system, bet eradicate it thoroughly, at once, by this power, tally healing compound and leave your Lungs uninjured, to carry you in full

MOTHERS!

Have you delicate, weakly children, who are always taking cold, and subject to Croup! Remember! There never was ease of Croup, which did not originate in a Cold! And when your child goes to bed wheeling and coughing, you know not that, before morning. Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them at once, and rest not until the cough is entirely subdued. We conscientiously ayer, after the is entirely subdued. We conscientiously aver, after the most extended experience, that if this advice were followed

all orders and applications for agencies must be addressed.
